

Our Sustainable Supplier Pledge 2030 – Follow The Camino

Follow The Camino is deeply committed to running all activities with environmental sustainability in mind, especially the goals of the Paris Agreement, which includes a 50% reduction in CO2 emissions by 2030.

Starting in 2025, Follow The Camino will take the following steps when choosing suppliers to help us meet—or exceed—these goals. Suppliers that align with our vision will not only contribute to a more prosperous future, but will also gain recognition and trust in an increasingly eco-conscious marketplace by demonstrating their commitment to responsible practices.

We look forward to solidifying our partnerships in the journey towards a more sustainable future.

Umberto Di Venosa
CEO

Supplier Selection Criteria
